

Hay, got it?

Don't let the health of your herd suffer due to low-quality forage. If your forage is lacking in quantity or quality this year, order the Bartlett Co-op's specially made product:

Forage Extender

- A highly digestible source of fiber
- Developed to save you money
- Pairs well with most forage programs
- Can be made bagged or bulk for your needs
- A high-energy forage extender is also available

Stop by or call to find out more information and see how it can fit into your feeding program today!
